

SmolLM2-135M CPT: a small signal survives denser ordinary controls

FineWeb forgetting (checkpoint NLL – base NLL)

A Complete ordinary comparison

B Dense ordinary checkpoints

C Fixed LR1e-5 contrasts

— Other ordinary LR / replay settings ● Ordinary LR1e-5, 20% replay ★ K64 candidate, 20% replay

Development evaluation · one training seed · 44 added observations with exact model / optimizer / RNG overlap checks.
Solid lines: 20% replay; dashed: no replay. Shading: predeclared ± 0.001 math-NLL matching band. Fresh documents and paired seeds remain untested.
